

# REAL WOOD CARDS

## CURIO CARDS

Canadian Moose

We would like to introduce to you our line of **REAL WOOD CARDS**.

Curio Cards do not just look like wood they are wood!! We utilize a number of different wood species including Curly Maple and Eastern Red Cedar with its pleasant cedar fragrance, which means each card is totally unique.

Curio Cards have a number of different card lines available including Greeting Cards, Christmas Cards and Postcards. Our postcards are interchangeable between Provinces/States. With our ability to offer Custom Cards we are able to cater to all your card requirements.

REAL WOOD CARDS are such a great twist on a classic product. They are a product that sells and with great profit margins, retailing from anywhere between \$3.75 - \$5.25.

In comparison to the paper making process, it requires less wood and other resources to make our wood cards than it does to make traditional paper cards. Logs are hand selected and only sourced from companies that employ sustainable yield harvesting procedures.

Our light weight, durable and flexible cards can and have been mailed to all corners of the world. As our cards are approximately the same thickness, weight and size as a traditional card the postage costs are the same.

Writing on a Real Wood Card is easy... simply using any type of pen start writing.

By choosing our REAL WOOD CARDS you are receiving something that showcases nature's best in a beautiful and unique way.
